My garden design

Use this page to help you to research and plan your garden.
What is the purpose of your garden? Does it have different areas for different activities? You might include:

- Planting beds for growing food for people e.g., vegetables, fruit, herbs.
- Plants and habitats for animals and insects.
- Lawn to relax, to exercise or to play.
- Water feature or a pond for wildlife.

The purpose of this garden is to:

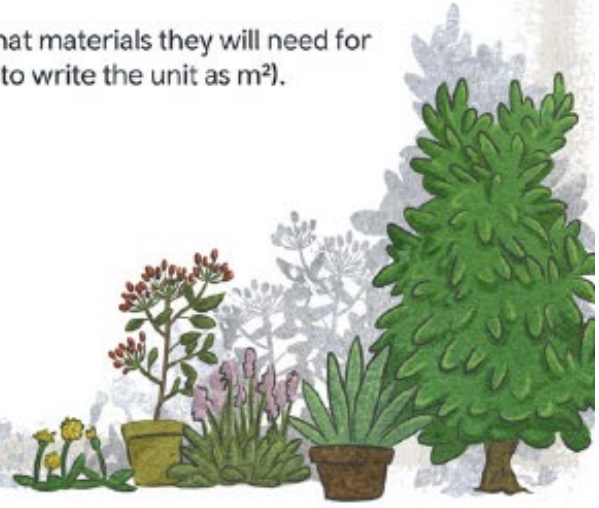

When your design is finished. Help the gardeners calculate what materials they will need for each area by calculating the size of each section. (Remember to write the unit as m^2).

The area of the _____ is _____

The area of the _____ is _____

The area of the _____ is _____

The area of the _____ is _____

My garden design

You will need to use a scale to design your garden e.g.. 1 square of the paper = 1 m²

1 square = _____
