CYBER FUNDAMENTALS

UNIT 2: THE INTERCEPTORS

STUDENT WORKBOOK

EDUCATION.MINECRAFT.NET

VOCABULARY WORDS

Welcome cybersecurity specialists!

Throughout Cyber FUNdamentals, you are going to come across a lot of cybersecurity vocabulary words. This workbook is designed to help you make meaning of these new words. In the designated spaces, write down definitions, jot a picture, or even list out an example to help you remember these words.

In this unit, you are going to explore a Security Operations Center (SOC). In the space below, write down what you know (or want to know!) about jobs and careers in cybersecurity.

Lesson 1: Authentication

Authentication	Multi-Level Authentication
Passwords	Keycard
Biometrics	Cyber attack

Lesson 2: Incident Response Team

Incident Response Lead	Analyst
Forensics	Engineer
Communications Specialist	Cybersecurity Legal Expert

CHALLENGE:

Use this opportunity to conduct additional research to find out more about each job role on the Incident Response Team. You can look into the projected number of job roles in the future, the annual salary, educational requirements, etc.

 Cybersecurity Analyst	
 Digital Forensics Analyst	
 Security Engineer	

 Communications Specialist	
 Cybersecurity Legal Expert
