VOCABULARY WORDS

Welcome cybersecurity specialists!

Throughout Cyber FUNdamentals, you are going to come across a lot of cybersecurity vocabulary words. This workbook is designed to help you make meaning of these new words. In the designated spaces, write down definitions, jot a picture, or even list out an example to help you remember these words.

In this unit, you are going to explore the concept of a digital footprint. What kind of footprint do you have? Think about different types of social media accounts, online profiles, etc.

Lesson 1: Back-up Data

Digital Footprint	Vulnerability
Hacker	Ethical
Ransomware	Cloud

Lesson 2: Big Bad's Attack

In this lesson, you will investigate a warehouse filled with Internet of Things (IoT) devices. In the spaces below, capture examples of IoT devices.
