

RESEARCH RELIABILITY CHECKLIST

Author – Is the author presenting an unbiased view of Wales?

Date – When was the information published?

Sources – Did the website credit the sources of the information presented?

Domain – Is the domain reliable? Such as .com, .gov, .org?

Site Design – Even though the site may look good, it may be fake. Have you checked?

Writing Style – Poor spelling and grammar are an indication that the site may not be credible.
