

The **COUSTOE FAMILY**

EMPATHY EDUCATION @BBTNB

The Coustoe Family had their family home struck by lightning and they lost everything. The cause is still under investigation but investigators believe a teacher used the weather thunder code. Mom, Dad and adult daughter all now find themselves without a home. This presents a new opportunity.

The family for some reason is obsessed with WATER (It might have something to do with lightning and fire destroying their lives). Dad Coustoe has actually said if his family could live UNDERWATER they would. Could this be your chance to help?

- If you can help here are some things to consider and some family member interests:
- Mom has said a family pet may lift spirits but is their an animal that can live under water?
 - Dad loves to read the newspaper but needs a way it can be delivered without getting wet.
 - The daughter has said she doesn't care where they live as long as it is not dark all the time. She loves light.
 - They all agreed when talking about living underwater that they would miss trees and green life the most (or do they have to miss it?)
 - It would be awesome to have a small island with some trees that the family could boat to if they miss the land
 - Anything else you can think of that would help the family is greatly appreciated.
