Building Beetopia

What are three habitat components that bees need in order to survive?	How did you provide these components for your bees?

What four main challenges do bees face?	How did you help your bees survive these challenges?

Answer Below: How is a bee's life similar to a human's life? If you're not sure, think about these questions:

- What basic needs do bees and humans share?
- Which of the threats to bees are also threats to humans?
